

A Masterpiece ...

in mechanics and precision are LAMBRECHT's drum recorders. Manually manufactured, these instruments are liable to very narrow production tolerances. Traditional but matching today's high requirements, the recording of temperature values is provided off the line and manipulation proof. The well organized display of the results as well as robustness and stability distinguish the drum recorders.

- ▶ very low maintenance
- ▶ easy reading and handling
- ▶ thermo-mechanic measuring principle
- ▶ clockwork drums and drives acc. to DIN 58658
